PROFESSIONAL SUMMARY

Ambitious and endlessly curious cybersecurity student with a strong drive to learn, adapt, and embrace new challenges. Highly motivated to bridge the gap between academic theory and practical application by gaining hands-on, real-world industry experience. Seeking to leverage a foundational understanding of cybersecurity, programming proficiencies, and proven leadership skills to contribute effectively to a dynamic security team.

EXPERIENCE

Cybersecurity Member — July 2026 – Present
Google Developer Group

- Contribute to the cybersecurity vertical of the community, exploring threat detection, secure coding practices, and vulnerability analysis alongside fellow members.
- Participate in workshops, study sessions, and hands-on security exercises to build practical skills and share knowledge with peers.
- Collaborate with other members on security-focused projects and community initiatives, applying Google Cybersecurity training to real scenarios.

Outreach and Partnership Lead — September 2025 – Present | Pune, Maharashtra
Kryptonex Technical Club

- Spearhead outreach initiatives to establish technical partnerships and collaborate with industry professionals, sponsors, and organizations.
- Organize and promote technical events and workshops, successfully bridging the gap between university students and the broader tech industry.
- Drive student engagement and club growth by communicating technical concepts and building strong relationships with external stakeholders.

PROJECTS

DevSecOps Code Review Automator
Multi-agent AI pipeline that intercepts GitHub pull requests, runs Static Application Security Testing (SAST), coordinates specialized LLM agent reviews, alerts engineering channels, and logs full execution audit trails.

What the Hack — AI-based Network Attack Forecasting
SIH 2026 · Problem Statement SIH26153 · NTRO · Theme: Blockchain & Cybersecurity · Category: Software
Explainable early-warning system that forecasts likely cyberattacks from network-traffic behavior before they fully materialize. Groups traffic into short windows, extracts behavioral features, predicts attack risk 1–5 minutes ahead, and presents ranked, human-readable reasons and recommended actions to security analysts.

EDUCATION

Bachelor's Degree in Computer Science — 2025 – 2029
Dnyan Prasad Global University by DYP Unitech Society, Pune, Maharashtra

12th Grade (HSC) — 2023 – 2025
Pratibha Junior College, Pune, Maharashtra

10th Grade (CBSE) — Graduated 2023
RMD International School, Pune, Maharashtra

SKILLS & CERTIFICATIONS

- **Certifications:** Google Cybersecurity Professional Certificate
- **Programming & Tech:** C, C++, Python, SQL, Bash shell commands
- **Core Competencies:** Partnership Development, Professional Outreach, Team Leadership, Event Coordination, Problem Solving
